

BRING YOUR OWN SLIDES (PowerPoint®) BYOS.ppt

Wednesday, February 17, 2021: 6:00 p.m. – 7:30 p.m. U.S. Central Standard Time

In order to keep BYOS.ppt informal, fun, and informative for the large and diverse audience, here are a few things to keep in mind for the BYOS.ppt program at the 2021 Virtual Meeting (<https://aafs2021.vfairs.com/>):

- **Speakers must be registered for the AAFS Virtual Meeting to be able to present in the BYOS session.**
- **The 2021 BYOS session will be a LIVE Zoom Webinar hosted on the VFairs platform. Please be prepared to present a live video presentation.**
- Presentations must be in PowerPoint® format.
- Proposals must be submitted on this form accompanied by a “6-slides-per-page” printout of the presentation and an electronic copy of the full presentation.
- BYOS *is not* intended as a forum to present scientific papers. It is designed as a means to present interesting information and/or unusual case(s) that may be educational and blended with humor.
- Speakers should plan on ten minutes in which to present their material.
- Material being presented in other parts of the AAFS scientific program should not be submitted to the BYOS program committee.
- Tables, charts, and graphs should be avoided, and every effort should be made to use slides of scenes, bodily findings, and evidence.

This (1) completed form, (2) a “6-slides-per-page” printout, and (3) the electronic presentation copy should be emailed to AAFS **and** Dr. Jamie Downs by 12:00 p.m. on Wednesday, February 17, 2021 (*email information below*). Presentations will be selected and scheduled based on perceived interest to the audience and in the order in which the completed submissions are received. This form and required printout are needed to organize the BYOS.ppt program and to allow appropriate allocation of continuing education credit.

BYOS PROGRAM FORM

Name and Degree(s): _____

Job Title: _____

Place of Employment: _____

AAFS Section Affiliation (if none, write “none”): _____
